- MongoDB
- MYSQL
- MSSQL
- Firebase
- C#
- AWS AND AZURE
- In Depth knowledge of Algo(Big O notation) and Data structures
- LookML and SSIS

EXPERIENCE

Clever Programmer: Teacher assistant
2021 - Current

- I work as a teacher assistant

Application specialist
Parian Logistics, 2019 - 2020

- I worked as IT support in Parian Logistics .I oversaw the installation, configuration, administration and troubleshooting of a wide range of desktop hardware and software (Windows XP, Windows 7, Windows 8, Windows 10).
- I was also involved in the configuration and administration of our Microsoft exchange server , office 365 and other mailing apps as well as the deployment of patches across multiple installations.

Data analyst/Database developer
CodeMed, 2019 - 2019

- For codemed.
- I handle very complex data migrations,development of complex reports, BI and dashboards.
- As well as writing T- SQL scripts/stored procedures for data extraction and report development.
- I also make use of looker markup language in looker framework for developing BI , Dashboards and analytics.I also use sql integration services for bulk imports by developing automated logic in script path to handle mass importation of data from multiple csvs into our databases.
- I am also heavily involved in ETL processes as well as general database development for my current employer.

Remote Software Development
Department Of Paediatrics UNTH, 2014 - 2019

- Developed ,configured and integrated a course management and automated grading solution within various computing environments.
- Post Deployment: I was heavily involved in application system maintenance, hotfixes and patches
- Collaborated with testing teams to support systems integration testing and user acceptance testing.

Customer Service Representative
Intouch, 2018 - 2019

- For Airbnb.
- I handle inbound calls, tickets, documentation, inbound and outgoing emails and social media campaigns and marketing.

Information Systems Specialist
Glory Land Hospital, 2016 - 2018

- Implementation and deployment of an Enterprise grade health management platform as well as interfacing Laboratory (Mindray) auto analyzers with the existing hospital Laboratory Information systems server.
- Favor Child Clinic : Implementation and Deployment of an end to end Hospital Management Platform and the setup of an integrated LAN network in the clinic.
- Implemented Processes involving development of custom tailored modules to streamline with specific requirements of the health facility as well as an in-depth training of the clinic's staff on usage of the platform.

Customer Service Representative
