## EXPERIENCE

**Intermediate level Software Developer**

Reason One | January 2022

- I Was involved in web performance testing and optimization across various projects.,
- I worked across different tech stacks from front end  with react/nextjs  to backend cms systems , implementing asp.net core mvc projects from the point of discovery to final implementation
- I was also responsible for ensuring that projects comply with wcag 2.1 accessibility standards.

**Teacher's Assistant**
Clever Programmer | March 2021
- I work as a teacher assistant

**Application specialist**
Parian Logistics | November 2019 - October 2020
- I worked as IT support in Parian Logistics .I oversaw the installation, configuration, administration and troubleshooting of a wide range of desktop hardware and software (Windows XP, Windows 7, Windows 8, Windows 10).

- I was also involved in the configuration and administration of our Microsoft exchange server , office 365 and other mailing apps as well as the deployment of patches across multiple installations.

**Data analyst/Database developer**
CodeMed | April 2019 - September 2019
- For codemed.

- I handle very complex data migrations,development of complex reports, BI and dashboards.

- As well as writing T- SQL scripts/stored procedures for data extraction and report development.

- I also make use of looker markup language in looker framework for developing BI , Dashboards and analytics.I also use sql integration services for bulk imports by developing automated logic in script path to handle mass importation of data from multiple csvs into our databases.

- I am also heavily involved in ETL processes as well as general database development for my current employer.

**Remote Software Development**
Department Of Pediatrics UNTH | July 2014 - August 2019
- Developed ,configured and  integrated a  course management and automated grading solution within various computing environments.

- Post Deployment:  I was heavily involved in application system maintenance, hotfixes and patches

- Collaborated with testing teams to support systems integration testing and user acceptance testing.

**Customer Service Representative**
Intouch | December 2018 - April 2019
- For Airbnb.

- I handle inbound calls, tickets, documentation, inbound and outgoing emails and social media campaigns and marketing.

**Information Systems Specialist**
Glory Land Hospital | March 2016 - January 2018
- Implementation and deployment of an Enterprise grade health management platform as well as interfacing Laboratory (Mindray) auto analyzers with the existing hospital Laboratory Information systems server.

- Favor Child Clinic : Implementation and Deployment of an end to end Hospital Management Platform and the setup of an integrated LAN network in the clinic.

- Implemented Processes involving development of custom tailored modules to streamline with specific requirements of the health facility as well as an in-depth training of the clinic's staff on usage of the platform.

**Customer Service Representative**
Intouch | October 2018 - April 2019
- For lyft.

- I handle inbound calls, tickets, documentation, inbound and outgoing emails and social media campaigns and marketing.
